In 1974, the United States Congress enacted the Juvenile Justice and Delinquency Prevention Act (the Act)¹. In 2002, Congress reauthorized the Act. The purpose of the Act is to provide a coordinated and comprehensive approach to the problems of juvenile delinquency. Section 223 of the Act addresses the requirements which states must meet in order to receive formula grants from the federal government. Pursuant to Rhode Island General Laws §42-26-4 the specifics of the Act and the administration of juvenile justice funding is carried out by the RI Department of Public Safety Grant Administration Office (formerly known as the RI Justice Commission) and specifically by the Juvenile Justice Specialist.

The Act requires that states adhere to certain "core requirements" when apprehending and detaining juveniles and that a record is maintained of the nature of detentions and characteristics of juveniles detained. All law enforcement agencies in Rhode Island are required to maintain this information through a self-reporting system on a Juvenile Detention Data Summary Form². These reports are forwarded to the Public Safety Grant Administration Office on a monthly basis, and the Juvenile Justice Specialist uses the information to submit a yearly *summary report* to the federal Office of Juvenile Justice and Delinquency Prevention.

Please note that these reports focus on juveniles securely and non-securely detained. Other juveniles may have been released at the scene, transported home, brought directly to the RI Training School or to Court. Also note that only the most serious offense for which the youth was detained is recorded. Accordingly, these numbers may differ from other statistics such as court petition data, etc.

In order to further utilize the data submitted to the Public Safety Grant Administration Office a relational database was created. With this analysis tool, it is possible to examine the dynamics of juvenile offenses in much greater detail. We can examine offenses statewide, within cities and towns or among cities and towns by age, gender, racial/ethnic background, time of day, day of week or month. Our aim in this project is to provide practitioners and policy makers with statistical information that will allow their decision-making processes to be more informed.

Data can also be accessed at <http://www.rijustice.ri.gov/sac/statistics.htm>.
